

# PLASCOURSE DPC SPECIFICATION

Effective November 2012

## PLASCOURSE

### PRODUCT DESCRIPTION

**Plascourse** is manufactured and tested to Australian and New Zealand Standard 2904 - 1995  
**Plascourse** is a high impact low density polyethylene film embossed on both sides  
**Plascourse** meets the test requirements for impact resistance AS/NZ 4347.6  
**Plascourse** is embossed both sides with dimensions between 3mm - 10mm maximum in both machine and transverse direction and it's thickness is measured in accordance with AS/NZ 4347.9

### APPLICATIONS

**Plascourse** may be used as a damp course in brick or block work  
**Plascourse** may be used as a concealed flashing under timber, window frames or door frames  
**Plascourse** may be used when separation between different materials is required  
**Plascourse** MUST NOT be used in applications where it is exposed to direct sunlight
